Report to the SAMSC General Meeting, Tuesday 7 March 2023

2023 has started strongly with a great in person training event being held in advance of the Snowman Rally on the Black Isle (thanks to Highland Car Club) and SMRC have run their annual in person training for race marshals at Knockhill. The Scottish Association's webinar programme is in full swing and we continue to attract delegates from across the rest of the UK as well as significant numbers from across Scotland, and a number of international delegates. We have also held a planning and development day for Scottish trainers during January supported by Motorsport UK development team and the chair of the Training Working Group.

2022 closed with the annual safety services weekend at Knockhill, and you may have seen the excellent write up in Revolution magazine.

We are continuing to look at ways to enhance our training programme, and firm up dates for the in person events later in the year. We are in the process of planning ways to continue to offer high quality hot fire training. Details of this year's programme is attached, covering 34 days – 22 of which will be delivered online, including bimonthly webinars we are facilitating for Motorsport UK for the Medical, Rescue & Recovery community.
